# WHAT IS A SISTER CIRCLE?

Girl-friends, besties, vent buddies, friends...we rely on them to help us get through the celebrations and disappointments of life. Those situations don't define us, but we go through life as if they do. A Sister Circle can help us when we are in a place where we desire a greater connection with our divine power and unique gifts. It's the union of coming together with like-minded women who help us to connect and celebrate our "True Authentic Self" by shining light on how we choose to show up in the world despite it all. It's a place where we can take your masks off and feel safe to just "BE". This is where the healing begins.

# IS THIS RETREAT FOR YOU?

**GIRL** *Let's* **GO** com  
The World Is Waiting™

When contemporary traditions and religions leave a gap of unanswered questions and has you in a desperate search for space to live in your truth, the Good Vibes Circle of Sisters is A place of virtual, physical, emotional, spiritual refuge. A place where you can connect the dots and be affirmed, educated supported in ways that mainstream remedies cannot. Surrounded by individuals who understand, and respect the value of “guided introversion,” you are able to connect to your inner self in a way that allows your natural vibrations to resound without fear of judgement or the need to hold back. This is the perfect recipe for living in your truth and experiencing a more harmonious and fulfilling life.
